### SKILLS

HTML CSS Javascript  
React JS Vite Next JS  
Node JS MongoDB Express JS  
Redux Core Material UI Tailwind Css  
Firebase Auth & Database

### EDUCATION

Bachelor of Software Engineering

Indus University

2023-2027

Bachelore in progress will be completed till 2027

Web & Mobile App Hybrid Developement

Saylani Mass IT Training

2021-2022

Passed FMP with flying colors by making food booking application

### LANGUAGES

English  
Urdu

### PROFILE

I am a React JS + Node JS developer with a passion for building dynamic and interactive web applications. With 1.5 of experience in front-end development, I have specialized in utilizing React JS to create robust and scalable user interfaces. Throughout my career, I have successfully delivered projects ranging from small-scale applications to large enterprise-level systems. I possess a deep understanding of React JS and its ecosystem, including Redux, React Router, and React Hooks. I am well-versed in modern JavaScript concepts, such as ES6+ syntax and functional programming principles.

### WORK EXPERIENCE

#### Front-End Developer

Digitrends

2022-Present

- Designing and implementing UI features:** This includes creating the layout, navigation, and visual components of a web application or website.
- Writing clean and efficient code:** Frontend developers must ensure that their code is well-organized, easy to read, and optimized for performance.
- Testing and debugging:** Before deploying their code, front-end developers must thoroughly test and debug their application to ensure it works as intended.
- Collaborating with designers and backend developers:** Frontend developers often work closely with designers to ensure that the UI meets the design specifications, and with backend developers to integrate the frontend code with the backend logic.
- Staying up-to-date with emerging trends and technologies:** To remain competitive, front-end developers must stay current with the latest technologies and design trends.

### LIVE PROJECTS

#### Learning Managment System

Link: <https://student-registration-a0578.web.app/>

- Documentation of different user roles (student, instructor, trainer, assistant) and their corresponding permissions.
- Guidelines for users to create accounts, sign up for courses, and manage their profiles

#### Teledr4u

Link: <https://teledr4you.com/>

- Appointments with a psychiatrist, social worker, psychologist, mental health counselor, or substance use counselor for all individuals in rural Hawaii
- Video Conferencing feature added with Jitsi Repo

#### Revents

- The system facilitates online registration and ticketing processes, allowing attendees to sign up, purchase tickets, and receive confirmations electronically.
- The system helps manage attendee information, such as contact details, dietary preferences, special requirements, and ticket types.
- The system assists in selecting, booking, and managing event venues and resources.
